## INFORMATION FOR PATIENT, SURROGATE OR RESPONSIBLE PARTY OF PATIENT NAMED ON THIS FORM

• The MOST form is always voluntary and is usually for persons with advanced illness. MOST records your wishes for medical treatment in your current state of health. The provision of nutrition and fluids, even if medically administered, is a basic human right and authorization to deny or withdraw shall be limited to the patient, the surrogate in accordance with KRS 311.629, or the responsible party in accordance with KRS 311.631. Once initial medical treatment is begun and the risks and benefits of further therapy are clear, your treatment wishes may change. Your medical care and this form can be changed to reflect your new wishes at any time. However, no form can address all the medical treatment decisions that may need to be made. An advance directive, such as the Kentucky Health Care Power of Attorney, is recommended for all capable adults, regardless of their health status. An advance directive allows you to document in detail your future health care instructions or name a surrogate to speak for you if you are unable to speak for yourself, or both. If there are conflicting directions between an enforceable living will and a MOST form, the provisions of the living will shall prevail.
