The Office of Inspector General would like to remind all practitioners of 902 KAR 55:105 Controlled substance prescriptions blanks.

With the advancement of computer generated prescription blanks and new CMS tamper-resistant requirements, our office has received several calls about the compliance of certain controlled security blanks recently. As a reminder, all practitioners in Kentucky are mandated by law to utilize a security prescription blank when prescribing a controlled substance while practicing within the Commonwealth.

Please use the diagram below to assist in determining if your controlled substance prescription blanks meet all of the requirements established in 902 KAR 55:105. Please note this is for controlled substance prescription blanks ONLY.

Federal law requires prescriber name, address, telephone number & DEA Registration Number

Rx is 4 1/4 inches high and 5 1/2 inches wide

Refill options on left Side in this order

A latent, repetitive “VOID” pattern at 5% in pantone green printed across the script. If copied, “VOID” appears in pattern across entire script.

Additional guidance regarding controlled substance prescriptions:
- A controlled substance prescription may NOT be pre-printed or written, typed or rubber stamped with the name of the controlled substance until issued to patient.
- All prescriptions shall be dated and manually signed by the practitioner on the date issued.

If the prescription is sent via fax (schedule III-V):
- Prior to transmission, the practitioner or practitioner’s agent shall write or stamp “FAXED” on the face of the original prescription along with the date and the person’s initials.
- The original prescription shall be filed in the patient’s record.

Disclaimer: This is not an all-inclusive list. Please refer to 902 KAR 55:105, 21 CFR §1306.05, and KRS 217.216 for further details. Call the Drug Enforcement and Professional Practices Branch with any questions, (502) 564-7985
